

## BRK GHOST Barrel Tuner

A Barrel Tuner is available for the BRK Ghost and is fitted standard on the Ghost World Record Limited Edition. The barrel tuner is designed to add stability and reduce barrel vibration in high power rifles.

The tuner is pre-tensioned from the factory for optimal results with test pellets. It is possible to re-tune to allow for different ammunition and power settings.

### Fitment

1. Remove existing barrel shroud and barrel shroud retainer
2. Remove barrel, loosen the barrel support block
3. Insert shim 156 between support block and main body
4. Replace barrel and remove muzzle brake
5. Insert parts 156, 151 and screw in place 152 using a suitable tool to apply tension
6. Lock 154 with the 6 screws 155
